#### THE LARGEST CIRCULATION Of Any Daily Published in East Tennessee.

A DELIBERATE and unreasonable at tempt has been made to injure Gov. Scott, of South Carolina, for political effect. Very naturally, the actors in the plot chose the Sun, of New York, as the medium through which to accomplish their ends. It was charged that Gov. Scott had hired, New York "roughs" to go to his State and raise disturbances. Of course the whole matter was felse, and intended only for political effect.

UNDER the existing school law, the qualified voters in each school district, as the same shall be mapped out by the County Commissioners, will be called upon soon to elect three commissioners, who will have the management of the schools for their district. They are to employ the teachers, provide school honses, school furniture, &c. These commissioners should be selected with care. Upon the success of schools this year depends our success for the future.

THE reports from Nashville indicate that the Legislature will refuse to adjourn until enough of currency is received in the treasury to pay their per diem. Many of them are unable to get away without that, and the probability that they will be paid off with Comptroller's warrants creates great consternation. It is said they will resolve themselves into a Variety establishment, and give a series of exhibitions of the serio-comic order charging an admission fee of twenty-five cents to defray their expenses home.

#### THE TRIUMPH OF RIGHT.

The very decided majority by which the citizens, without distinction of party-a cause, there will be no further feeling on city in five years. the part of any.

The action of the County Court in levying a tax of two mills, and the vote of the city yesterday in favor of one mill, insures a sufficient sum for a system of good schools, both in the county and city. But this is but the beginning of the work. The proceeds of the county tax goes into the hands of the Trustee of the county. The committee appointed by the Court to look after the organization of the county schools is composed of earnest school men, practical and clear-headed business men, of both political parties, and, we trust, in their hands the schools will be well managed and free from all political influences. The tax to arise from the city levy will pass through the hands of the City Council, and the prised if the Press and Herald this mornsuccess of the system depends upon their ing is the loudest in rejoicing over the trifidelity and efficiency. The taxes levied umph yesterday and the first to claim are for one year. Whether we shall have new levies for the next year and for years to follow, depends upon the success attending the organization and management for the present year. It is the duty, therefore, of every friend of the cause to assist in every way, both by suggestions and cordial support, the men who have the initial duties to perform.

To those who opposed the city school system yesterday, we have only to say that we hope before they are again called upon to vote a new levy, they may be persuaded of the great error of their vote and be made to realize the irreparable injury the defeat of the proposition would have inflicted upon the city. As was well said on Friday night at the school meeting, the proposition was one of the most momentous ever presented to our people, and those who voted against it, we hope will live long enough to be thoroughly ashamed of it.

Whatever we have done in the matter. has been done from a deep and earnest con- LADIES' & CHILDREY'S SHOES. viction of duty, and not to further the interests of any party or set of men.

Schools, free and thorough, are the great need of our State, and we are rejoiced to be able to send the word far and wide that Knoxville has done herself the proud distinction of inaugurating such a system.

THE recently elected Governor of Delaware was inaugurated a few days ago. The following is a portion of his inaugural ad-

"It is a source of gratification to me that I owe my election exclusively to the votes of the white citizens of the State. The honor of the position would, in my judgment, have been diminished, and its possession whelly underired by me, had that possession depended upon the suffrages of any other class of the community."

It will be seen that he considers it disgraceful to be voted for by colored men. That is the way Democrats feel, unless colored votes are necessary for success.

#### WAR MOVEMENTS.

The operations of the German armies for the past ten days have been exceedingly brilliant and vigorous. The results have been equal to the extensive scale upon which they were executed. After the disastrous defeat of Gen. Chanzy, near Le Mans, in which his losses in prisoners alone amounted to 22,000, his armies divided into two retreating columns were pressed with vigor and wonderful success. The two divisions retreated in different directions-the one upon Alencon, the other moving west upon Loval. The object and hope of the northern column was to meet the re-inforcements of about fifty-thousand men, which were about Cherbourg, and intended to give immediate relief to at least that one of the two routed columns. But this force was cut off by the destruction of the railroad by a strong column of Germans sent out for that purpose, and Gen. Chanzy forced to send his columns southwest.

These movements of the Germans have added greatly to the demoralization naturally following the rout from Le Mans, and leaves Chanzy's army without any hope for present relief.

Our dispatches this morning bring information of the defeat of Bourbaki, near Belfort, after a battle lasting some days. If this should prove as decisive as the defeat of Chanzy, it will leave the Germans unopposed by any army of strength outside of Paris. So much for the vigorous movements of ten days.

The operations in the field have not diverted public attention from Paris. Trochu holds out amazingly well. No one even of his most sanguine friends, predicted that he would be able to manage the commissary department so successfully. There must be thorough system within the city, or near 2,000,000 of persons could not for so long a time be fed. The bombardment seems to be as effective as expected, but would hardly ever bring the garrison to terms if thep had food enough to last unequaled power in healing the diseases that it them for months. The siege will doubtand good artillerists, but it is after all but a question of food. As all predictions have thus far been at fault, it is but safe to say that the surrender must come some time. and before long.

A CONVENTION is now in session in Philadelphia whose object is to secure such changes in the Constitution by which God should be recognized as the Ruler of the Universe, and Christianity as the true baels of all Government. Over two hundred delegates are in attendance. Ex-Gov. Pollock, of Pennsylvania, was appointed permanent Chairman, and Rev. J. E. Smith, of Connectiont, Secretary.

AFTER ridiculing every school meeting that has been held in the city since the question was first agitated, and after misrepresenting and villifying the speakers who addressed them, we should not be surcredit for it.

MARINE CITY, MICH., July 27, 1879.

J. N. HARRIS & CO.—Dear Sirs: The Allen's Lung Balsam has arrived. I would not like to be without it, for it has saved my life. I took a bad cold and a cough, and finally consumption was scated upon mo. I was in a very bad state. I tried everything that was recommended, and spent a great deal of money, and got no help. I had the Allen's Lung Balsam for sale, but I knew nothing of its merits. I did not like to take it without knowing more about it. I had not sold a bottle. When your agent called on me I told him I could not sell a medicine I knew nothing about. He urged me to try it myself. I did so, and to my grateful surprise the first bottle stopped my cough, and before the third bottle was taken my lungs were healed and well, and I can now speak knowingly to my friends and customers of the qualities of Allen's Lung Balsam.

I remain respectfully. L. C. COTTREL. MARINE CITY, MICH., July 27, 1879. I remain respectfully.

It is only about seven years since the Balsam was first offered to the public, and in this short time it has become known and appreciated in nearly every town and village throughout the United States and the Dominion of Canada. Hundreds of thousands of bottles are annually sold, and thousands of witnesses testify to its
